

- Vacuum Forming (6' x 10')
- Pressure Forming (6' x 10')
- CNC & Robotic Routing
- Plastic Fabrication
- E Kanban Services
- Engineering & Commodity Materials
- Dedicated Assembly Area
- www.genplas.com

- Multi-Nozzle Structural Foam
- Gas Assist Molding
- Gas Counter Pressure
- 8 Paint Booths
- Parts up to 150lbs
- Assembly & value add
- Alternative material conversions
- www.dekalbplastics.com

- Injection & gas assist
- Low to mid volume EAU
- Structural Foam
- Assembly & value add
- Tonnage range: 40-720 ton
- In house mold and tooling facility
- ISO & AS certified
- www.metplastics.com

- 33 blow molding presses
- Shot size to 70 pounds
- Assembly and value add
- Foaming
- Continuous extrusion blow mold
- Extrusion blow mold
- Processed materials include ABS, Acetal, Polycarbonate, Polyurethane and Polyethylene
- Bottles and Containers

- Bulk injection molding
- Parts up to 5" thick
- Parts up to 400lbs
- Thermoplastic resins
- Replace cast, forged, metal
- www.empslc.com

- Low cost tooling
- Design flexibility
- Variable wall thickness
- Engineering Assistance
- Shorter lead times
- Materials include UL94VO
- Encapsulation of metal or electronics
- www.exothermic.com

- Prototyping & short run
- Stereolithography (SLA)
- Selective Laser Sintering (SLS)
- Cast Urethane
- CNC Machining
- Fabricating
